DECT System

Lindon Group is an authorised agent to sell, install and service Spectralink DECT Systems, which allows you to communicate effectively anywhere around your facility. Delivering a host of benefits, including improved responsiveness to resident/patient needs, increased staff productivity, and increased staff safety. Key staff can carry a single, portable device that is not only a cordless telephone but can also receive text messages which can be used to raise the alarm in the event of an emergency. A range of solutions suits various sites, ranging from small nursing homes and aged care facilities to large retirement villages and hospitals.

Why Choose Us?

Lindon Group strives to provide vital customer-focused services with turnkey product solutions such as Nurse Call and Security Systems for the Healthcare industry. We provide integrated healthcare solutions that deliver better care and security designed to make healthcare more straightforward for everyone, allowing you to focus on what matters most. We aim to become the leading expert in our field whilst continuing to provide personalised customer service.
